EDUCATIONAL REQUIREMENTS

- A master's degree or higher in a mental health field specializing in working with children and families
- Licensure that allows you to work independently

**Note that if you do not have licensure you may be eligible to go up to Foundational*

In countries that do not follow the U.S. education and licensing model, applicants will be asked to demonstrate education equivalent to the above: they must work independently and take responsibility for the welfare of their clients according to the rules of their country.

Those who have other qualifications, or specialties working with children may earn up to the Foundational level of certification. There is also a practicum for Group Theraplay Practitioners. Please [contact us](#) for further information.

FEES

Fees listed are for US-based participants. International pricing may differ. Fees are pay-as-you-go by certificate level, you do not need to commit to completing the entire program.

*Fees must be paid prior to undertaking supervision in each level. Upon starting the practicum, \$200 of \$400 registration fee is nonrefundable. Fees at each level described above include registration at that level and 8 supervision sessions within that level.

If using an independent supervisor you will pay supervision fees directly to your supervisor, and only the registration fee (\$400) is required to begin each level of certification. This registration fee includes the TTI review for your intermediate and final submissions.
